

JOB TITLE: Information Technology Summer Internship (2016)

Headquartered in Dublin, Ohio, Cardinal Health, Inc. (CAH) is a \$103 billion health care services company that improves the cost-effectiveness of health care. As the business behind health care, Cardinal Health helps pharmacies, hospitals, ambulatory surgery centers, clinical laboratories and physician offices focus on patient care while reducing costs, enhancing efficiency and improving quality. Cardinal Health is an essential link in the health care supply chain, providing pharmaceuticals and medical products and services to more than 100,000 locations each day and is also the industry-leading direct-to-home medical supplies distributor. The company is a leading manufacturer of medical and surgical products, including gloves, surgical apparel and fluid management products. In addition, the company operates the nation's largest network of radiopharmacies that dispense products to aid in the early diagnosis and treatment of disease. Ranked #26 on the Fortune 500, Cardinal Health employs nearly 35,000 people worldwide. More information about the company may be found at www.cardinalhealth.com and @CardinalHealth on Twitter.

Location – Dublin, Ohio (Additional locations may be available based on business needs.)

Start Date – May/June 2016

Hours – The summer program is a full-time internship, approximately 40 hours per week for approximately 10-12 weeks.

*All Cardinal Health internships are paid internships.

The Summer Internship Program allows students the opportunity to work on meaningful and exciting projects that will give them the hands-on experience they need to build a solid foundation for their future. As an intern, students will have the opportunity to participate in a formalized program, designed to increase knowledge of Cardinal Health and the healthcare industry as well as develop essential leadership skills. Interns will be given the opportunity to explore different career paths and interview for full-time roles upon successful completion of the program.

Why Choose the Cardinal Health Summer Internship Program?

Experience: Interns work with other Cardinal Health professionals on their team, as well as business partners, customers and vendors on substantial projects in addition to daily work. To enhance leadership skills, each intern also participates on a planning committee. At the end of the summer, each intern has the opportunity to showcase their work in a presentation to business leaders.

Networking: Interns have the opportunity to learn from key business leaders through the “Executive Speaker Series.” They also have the opportunity to network with other professionals through both formal and informal networking events.

Development: Interns participate in a formal one-on-one mentoring program, as well as professional workshops to enhance their business acumen. They are also able to explore full time career paths throughout their internship experience.

Camaraderie: The internship program offers various social, teambuilding, community service events, as well as tours to help interns build a solid network of peers.

As an **Information Technology Intern**, you could potentially support the Enterprise Information Technology organization in several of the following ways:

- Translate business requirements into technical specifications
- Create technical documentation and specifications for single system components
- Administer project plans, budgets and other key deliverables for project managers
- Participate in testing execution efforts
- Collect data, perform basic needs analysis and effectively communicate results
- Analyze data between multiple systems and make appropriate updates
- Work with business and IT resources to resolve data quality issues
- Test, monitor and review implemented solutions; perform analysis of collected data and communicate findings to appropriate parties

Accountabilities in this role:

- Strong analytical skills and attention to detail
- Ability to interact effectively at all levels and across diverse cultures
- Must be willing to work independently and make sound decisions expeditiously
- Strong quality and results orientation with a proactive approach
- Ability to prioritize requests effectively and understand importance and meet deadlines
- Must be willing to adapt to shifting requirements or priorities
- Ability to work independently with moderate level of direction
- Ability to work with MS office products

Qualifications:

Cardinal Health primarily recruits current, full-time students who meet the following criteria:

- Currently pursuing a Bachelor's degree in MIS, Computer Science, Engineering or a related field
- Recommended GPA of 3.0 or above on a 4.0 scale
- Relevant coursework and/or projects
- Previous internship experience preferred, but not required
- Strong leadership, communication and analytical skills
- Established work ethic and ambition
- Process and results orientation
- Extensive community service and/or extracurricular activities
- Must be authorized to work in the United States; Cardinal Health will not sponsor students for work visas or other employment authorization

**If you are offered a position and you accept that position, the offer is contingent upon the satisfactory completion of a company paid drug test and background investigation, and demonstrated evidence that you are eligible to work for any employer in the United States.

All applications will be reviewed and the most qualified candidates will be contacted for an interview. In order to be considered, students must also visit Cardinal Health's website (www.cardinalhealth.com/college) and apply for the Summer Internship Program.
