We're all about: Growth — Innovation — People

## STATISTICS & DATA ANALYTICS SUMMER INTERNSHIPS!

### Who are we?

Lubrizol, a Berkshire Hathaway company, is a technology-driven global company that combines complex, specialty chemicals to optimize the quality, performance and value of customers' products while reducing their environmental impact. Lubrizol produces and supplies technologies to customers in the global transportation, industrial and consumer markets.

*Lubrizol isn't a common household name to most people, so it might surprise you that our products and technologies are in things you use every day, like the surfaces you touch, fluids in your vehicles, the shampoos and soaps you use, medicine you take, the clothes you wear, and in electronic devices and plumbing systems in your home.*

**This summer internship is located in Wickliffe or Brecksville, Ohio (suburbs of Cleveland). Housing assistance is available for out of town candidates.**

### What does a Statistics & Data Analytics Intern at Lubrizol do? Potential projects include:

- Assisting members of the department with consulting tasks
- Mining complex data for critical formulating or testing insights
- Performing research into new analytics/statistical methods
- Programming advanced modeling algorithms
- Training others on simple and/or advanced statistical methods

### What tools do you need for success?

- Currently enrolled in a MS or PhD statistics, data analytics or closely related program
- Good statistical and programming skills with the ability to work effectively with complex data
- Curiosity and creativity
- Ability to interact effectively with a wide variety of people including scientists and engineers
